Contact Page — Content Requirement Sheet

Based on the approved low-fidelity wireframe: contact.html

Prepared for: Uva Wellassa University — Faculty of Management | Document Date: 30 June 2026

The Contact Page brings together the Faculty's general contact details, an enquiry form, the Dean's Office, all four department contacts, a location/directions section, and an FAQ strip. This sheet lists every piece of real content needed to replace the wireframe's placeholder content, section by section. Per your instruction, the footer is not included in this document (the CTA Band at the end of the page is kept, as it is a separate content block).

Items highlighted in red below need particular attention — mostly two places where the same type of information (contact details, office hours) appears more than once on the page in slightly different forms, which is worth reconciling into one consistent source of truth. Image requirements are consolidated in a checklist at the end of this document.
